GURU SAI INNOVATIVE RUBBER CONCEPTS

Rubber • Plastic • Metal-Bonded • Customized Allied Components

ENGINEERING PRECISION MANUFACTURING EXCELLENCE

Our Products

Material Expertise

A wide range of elastomeric materials for diverse and demanding applications.

Natural Rubber	Excellent elasticity & vibration absorption. Ideal for anti-vibration, cushioning & packing.
Nitrile (NBR)	Excellent oil & grease resistance. Used in oil seals, O-rings & leak-proof parts.
Neoprene	Good resistance to water, oils, acidic conditions & weathering. Suitable for industrial use.
Silicone	High thermal stability & flexibility. Used in food, medical & specialized applications.
EPDM	Excellent resistance to sunlight, ozone & moisture. Ideal for outdoor & harsh environments.
Viton (FKM)	High-performance rubber with excellent resistance to heat, fuels, oils & chemicals.

Plastic Moulding Capabilities

PP, HDPE, LDPE, Nylon, ABS, PBT and other engineering polymers.

About GSIRC

An experienced manufacturer and supplier of high-quality rubber, plastic and customized molded components, catering to diverse industrial requirements across multiple sectors.

Manufacturing Expertise
Precision • Quality • Reliability

Application-Based Solutions
Design • Develop • Manufacture

Reliable Quality
Consistent • Durable • Performance Driven

Customer Centric
Flexible • Responsive • Long-term Partnerships

Industries We Serve

- Automotive Industry
- Telecom & R&D
- Agricultural Machinery
- Railways
- Defense & Aeronautical
- Pharmaceutical & Medical
- Garment / Textile

Specialized Projects & Applications

- Solar street light assemblies (leak-proof)
- Components for medical devices
- Vehicle interiors & aesthetics for defense projects
- Spares for railway signaling & control systems
- Metal bonding products for earth moving equipment
- Gaskets & R&D components for telecom & electronics
- Irrigation, sprinkler & sprayer system spares
- Components for rainwater harvesting systems
- Food grade rubber components for F&B and pharma

Our Commitment

- Understand application requirements
- Develop customized & reliable solutions
- Maintain consistent quality
- Support R&D and specialized development
- Build long-term, transparent partnerships

Our Vision

To be a trusted and preferred manufacturing partner for rubber, plastic and engineered components, recognized for quality, innovation and customer relationships.

Our Mission

To deliver reliable, application-specific manufacturing solutions by combining material expertise, manufacturing capabilities and a commitment to customer satisfaction.
